trust. Much of the meney of Western banks is loaned upon cattle and food which is to be used in preparing them for market. Many of the bankers have been large stock raisers themselves. Senator, Lewis of Page county, a member of the Banking committee in the last Legislature, shares this view. It is held by him that the mean values were forced down by the alleged trust, regardless of the scarcity and the great demand. Many farmers were ruined during the past two years as well as large stock men, and it is in such districts as deal especially in this line that failures have been most notable.

New Invention May Put Telegraph Receivers Out of Business.

"There has been much rubbish written by poets and others on kissing. Cyrano de Bergerac was a notable example of a poet who raved over the mere pressing of the lips by two infatuated persons. The only kind of kissing permissible under the law is the kind that occurs in the parlor when the lights are turned low.

"Kissing is dangerous and should be avoided. The cause of the Trojan war is generally attributed to a woman and a man's desire for kisses.

"The only safe kiss that can be given is the one after which no tales are told.

"A stolen kiss is no different from any other stolen article. No restitution can be made and it is therefore more grievous.

Coming-Out Ball.

Coming-Out Ball.

Miss Vanderbilt's debut into society was the fashlomable event of the New York season, and took place on the evening of December 14. The ball was marked by simplicity and was held at the Vanderbilt mansion on Fifth avenue and Fifty-seventh street.

Mrs. Cornellus Vanderbilt herself said that the affair was nothing but a "small cotilion of 209 persons" for the debut of her daughter, which really concerned no one but herself and for friends.

Mrs. Vanderbilt's spoken word in favor of the simple life was substantiated by the supper supplied by a Fifth avenue caterer. Ice-cream and mineral water were the chief refreshments, as if Mrs. Vanderbilt planned a practical lesson in abstinence. The caterer's wagons groaned under their loads of temperate luxuries, while little of the dust of years was shaken from the old bottles in the Vanderbilt cellare.
